Marlborough's succession of awards has continued with several more accolades picked up during the 2018 UK awards season.

Citywire UK Fund Manager Awards 2018

David Walton, Manager of Marlborough European Multi-Cap, was the winner of the *Europe ex-UK Equity* title for the second year running. In addition, Marlborough carried off the group awards in the *Europe ex-UK Equity* and *Global Bond* categories.

Money Observer Awards 2018

At the *Money Observer Fund Awards 2018* Marlborough Global Bond earned the *Best Global Bond Fund* title for a record-breaking sixth time in seven years [click here](#). Marlborough European Multi-Cap won *Best Fund* in the *Europe* category and Marlborough UK Multi-Cap Growth was highly commended in the *UK Growth, larger fund*, category.

Thomson Reuters Lipper Fund Awards UK 2018

In addition to Marlborough winning the title of *Best Group Over Three Years (smaller company category)*, we also picked up three more fund awards for our UK Micro-Cap Growth, UK Multi-Cap Growth and European Multi-Cap Funds.

Marlborough International provides access via offshore cells, which act as feeder funds into the award-winning Marlborough fund range.

This information is for Financial Advisers only and should not be relied upon by Retail Investors. Past performance is not a guide to future performance. The value of investments and the income derived from them may fall as well as rise and the investor may not get back the amount originally invested. Changes in exchange rates may cause the value of the funds to rise or fall. The European Multi-Cap and UK Micro-Cap Growth funds invest in smaller companies, which carry a higher degree of risk than larger companies and may result in a volatile NAV. The UK Multi-Cap Growth and UK Micro-Cap Growth funds invest mainly in the UK. Therefore they may be more vulnerable to market sentiment in that country. The Global Bond Fund invests in fixed interest securities which are subject to market and credit risk and will be impacted by interest rates. Some of the funds may use derivatives to protect the value of the fund assets or to reduce the costs of investing, although this may not be achieved. It is not anticipated that the use of derivatives will have any significant effect on the risk profile of the funds.

Investment in the Marlborough feeder funds can only be made on the basis of the relevant prospectuses, which are available from Marlborough International Management Limited on request or via www.marlboroughinternational.gg.
